Map filed MAY 03 1999 under 65012

\*\*\*\*\*

The applicant **Vernon V. Fredrickson** hereby makes application for permission to change the **Point of Diversion and place of use** of water heretofore appropriated under **Permit 65020**

\*\*\*\*\*

1. The source of water is **underground**
2. The amount of water to be changed **2.7 cfs**
3. The water to be used for **irrigation and domestic**
4. The water heretofore permitted for **irrigation and domestic**
5. The water is to be diverted at the following point **within the NW¼ SE¼ Section 11, T.1N., R46E., MDB&M., or at a point from which the West quarter corner of Section 14, T.1N., R.46E., MDB&M., bears S 30° 45' 42" W, a distance of 5796.19 feet.**
6. The existing permitted point of diversion is located within **NW¼ SW¼ Section 11, T.1N., R46E., MBD&M., or at a point from which the West quarter corner of said Section 14, T1N., R.46E., MBD&M., bears S 03° 41' 08" W. a distance of 4993.62 feet**
7. Proposed place of use **within the S½ of Section 11, T.1N, R46E, MBD&M**
8. Existing place of use **within the SW¼ of Section 11, T.1N, R46E, MBD&M**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works. **Well, submersible pump, electric motor and center pivot irrigation system**
12. Estimated cost of works **\$30,000.00**
13. Estimated time required to construct works **works complete**
14. Estimated time required to complete the application of water to beneficial use **five years**
15. Remarks: **See "EXHIBIT A" attached hereto**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 65020 is issued subject to the terms and conditions imposed in said Permit 65020 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline to each pivot near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meters must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the effects on existing rights and the resource within the ground water basin.

The total combined duty of water under Permits 65021 and 73717 shall not exceed 1280 acre-feet annually.

Permitttee will measure water levels in the wells currently under Permits 43011, 43016, 65021, 63102, 63103, 66947, 66948 and 73717. Any change of the wells to be measured must be noticed to this office in writing prior to the change.

Permitttee will measure water levels prior to irrigation in the spring, at the mid point of irrigation during the summer and at the end of irrigation in the fall. Any winter irrigation to be noticed to this office, in writing, prior to the change.

Permitttee will submit an annual report of the water levels for said wells and pumpage data for wells operated by the permittee on or before January 31 for the prior year.

The reports are to be cumulative with historical data and will contain one (1) well per page with the seasonal water level measurement and monthly pumpage data.

The monitoring plan to be re-evaluated prior to the fourth year of irrigation.

Issuance of this permit expires Temporary Permit 73716T.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.70 cubic feet per second, but not to exceed 640.00 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

January 17, 2008

Proof of completion of work shall be filed before:

February 17, 2008

Water must be placed to beneficial use on or before:

January 17, 2010

Proof of the application of water to beneficial use shall be filed on or before:

February 17, 2010

Map in support of proof of beneficial use shall be filed on or before:

February 17, 2010

IN TESTIMONY WHEREOF, I, Tracy Taylor, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,
